-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

Art Unit: 1626

Receipt is acknowledged of the information disclosure statement and Rule 131 Declaration filed April 10, 2007 and the Rule 131 Declaration and Disclosure Number 2002-028 filed April 30, 2007 and May 2, 2007, which have been entered in the file.

Claims 9, 26, 28 and 30 are objected to because of the following informalities: in claim 9, line 2, "is" should be inserted before "being". In claim 26, last line, "catlytic" should be -catalytic-. In claim 28, the "an" before "first reactant" should be changed to -a-. In claim 30, line 2, "a" should be inserted before "reactant". Appropriate correction is required.

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 23 and 24 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Art Unit: 1626

The specification does not specify what is encompassed by the following phrases: "a 4-triazole substituent" (R^1) and "a 1-triazole substituent" (R^2).

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1 to 30 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claims are indefinite because the claims do not specify what is meant by the following phrases: "a first reactant having a terminal alkyne moiety"; "second reactant having an azide moiety"; "product having a triazole moiety"; "a triazole"; "a polyvalent triazole"; "a polyazide core"; "a molecule having a terminal alkyne"; "a product containing a [1,2,3]-triazole"; "a first reactant having a monosubstituted alkyne"; and "reactant having an azide".

To overcome this rejection, the formulas for the reactants and products should be inserted into the claims. See page 12, line 5 of the specification, for example. Note that all

Art Unit: 1626

variables in the formulas should be defined and the definitions must be supported by the specification.

The Sharpless Declaration filed on May 2, 2007 under 37 CFR 1.131 is sufficient to overcome the Tornoe et al. reference.

No claim is allowed.

The references made of record and not relied upon show the state of the art.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Fiona T. Powers whose telephone number is 571-272-0702. The examiner can normally be reached on Monday - Friday 8:00 AM to 4:30 PM.
